

At Our Firm

YOU ARE OUR FOCUS

Our firm is dedicated to helping you plan for life and legacy through thoughtful estate planning, and to serving as a trusted resource for guidance and support during the probate and estate administration process after the loss of a loved one.

Many of our clients share that, although these conversations can be emotional, the experience of facing them with our guidance brings peace of mind. They value the time we take to educate and explain each step, document, and process. Our clients appreciate how we translate legal jargon into clear, understandable language and how we approach every question with empathy and compassion.

We understand that life is busy, and choosing the right professionals to assist with estate planning or estate administration is an important decision. You want to feel confident you've made the best choice for yourself and your loved ones. You want to make sure no one is left confused or overwhelmed— but instead supported and secure. That is our focus as well.

Whether we are designing your estate plan or guiding you through the administration of an estate, our goal is to make the process clear, efficient, and stress-free. We believe in open communication and transparent pricing—the majority of our services are offered on a flat-fee basis, agreed to in advance, so there are no surprises.

At our firm, you are never just a case number. We provide a highly personalized experience where your priorities become our priorities. At our firm, you are our focus!

Our Office is on the corner of Smith & Simpson.

Parking lot is on the side of the building.
